

include/network/UdpClient.hpp

```
graph BT; A["src/client/UdpClient.cpp"] --> B["include/network/UdpClient.hpp"]; C["src/client/main.cpp"] --> B;
```

A diagram illustrating include relationships between C++ files. At the top is a grey rectangular box containing the text 'include/network/UdpClient.hpp'. Below it are two white rectangular boxes: 'src/client/UdpClient.cpp' on the left and 'src/client/main.cpp' on the right. Two blue arrows point from the top of each bottom box to the bottom of the top box, indicating that both source files include the header file.

src/client/UdpClient.cpp

src/client/main.cpp
