

ECS::getEntitiesByComponents

```
graph LR; A[ECS::getEntitiesByComponents] --> B[GetComponentID]; B --> C[newComponentTypeID]
```

The diagram illustrates a three-step process flow. It begins with a gray rectangular box containing the text 'ECS::getEntitiesByComponents'. A blue arrow points from this box to a white rectangular box containing 'GetComponentID'. Another blue arrow points from the 'GetComponentID' box to a final white rectangular box containing 'newComponentTypeID'. All boxes have a thin black border.

GetComponentID

newComponentTypeID
